

Forward Messages

Incoming e-mail messages to your account can automatically be forwarded to other accounts while also delivering a copy locally. E-mails detected by our server as spam are not forwarded.

Add a Forward

Option 1: from the Webmail

- Go to the [Webmail](#)
- Log in using your full **e-mail address** and your **current e-mail password**
- Click on the **User** icon from the top right to activate the menu. Then click on **My account**

- In the **Forwards** tab, fill in the **Email address field** with the destination e-mail address and click on the **Add forward** button.

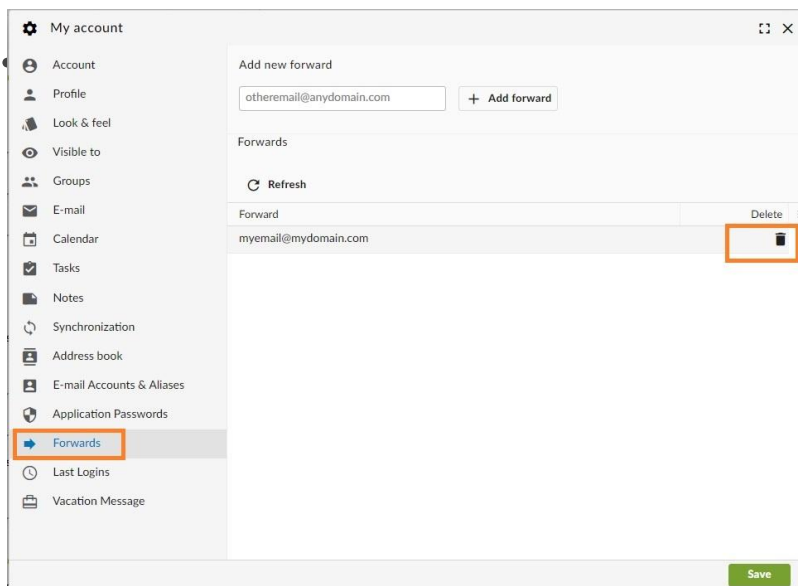

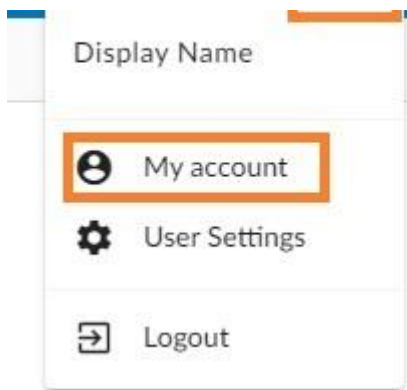

Option 2: from the User Panel

- Visit the [User Control Panel \(https://cp.emailarray.com\)](https://cp.emailarray.com)
- Log in using your full e-mail address (user@domain.com) and current password.
- Click on **Forwards** icon (envelope with arrow)
- Enter the e-mail address where you wish to forward incoming messages
- Click on the **Add Forward** button

Remove a Forward

Option 1: from the Webmail

- Go to the [Webmail](#)
- Log in using your full **e-mail address** and your **current e-mail password**
- Click on the **User** icon from the top right to activate the menu. Then click on **My account**

and click on the **Delete** icon.

Option 2: from the User Panel

- Visit [User Control Panel \(https://cp.emailarray.com\)](https://cp.emailarray.com)
- Log in using your full e-mail address (user@domain.com) and current password.
- Click on **Forwards** icon (envelope with arrow)
